A couple of weeks ago someone on this list was asking for a current number and source for wiper blades for '63-64 Avantis. Yesterday I noticed the rubber on mine was split--totally bad.

I get my parts at the NAPA West Michigan Distribution Center, and they not only listed these blades--they had them.

Yes, they are Tricos and they are called Classic Wiper Blades.
the NAPA part # is 60-1537.

If your local NAPA store does not have them, they should be able to get them from their distribution center.
